Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, lineups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice- versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Astro*Talk profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

Your StarType: The Artisan

Here is another quite independent StarType, one with great mental powers, albeit folded in on themselves, and all converging to a single practical point, like a laser beam. Charlotte's mind always has a very practical point of focus that cuts through a problem like the tip of a blowtorch. Her very strong ability to think and focus tends to be somewhat inward oriented and almost recursive, in that her mind very much guides the hand that does the work, and with great precision.

Your Rising Sign: Libra

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are all things to all people, always responding in a way to please and flatter -- a social being. You are so diplomatic and polite that one wonders if you have a viewpoint of your own. You have a natural ability to reflect and mirror others.

Planet Aspects

The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

The Sun

You are outgoing, overflowing, and very generous. Always the leader, if not the center of any group, you seldom fail to exhibit strong emotions. You are proud of yourself and of your accomplishments. Dramatic and just plain happy to be here, you are warm of heart, gregarious, outspoken, and independent.

Sun in Leo

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

Sun Conjoint Mercury

It is easy for you to work with those in authority -- those older and more experienced than you. You enjoy working with others and would make a good manager. An interest (and ability) in athletics, exercise (working with the physical body), the outdoors, and such, should be lifelong. Another form this could take is training or coaching others. You have a natural ability to express yourself and handle emotions and you may like to perform a bit. A career in one of the entertainment industries is a possibility.

Sun Trine Mars

Any attempt to avoid confronting life at the personal level is bound to frustration. Your avowed goals and ambitions may tend to ignore questions of vulnerability and great sensitivity, and the two are forever about to meet and "tell all." You would rather skirt your sensitive and vulnerable areas and concentrate on your career, but they always intrude and refuse to be banished. Although you yourself like to avoid personal issues, your interest in probing the secrets of others is very energetic.

Sun Square Pluto

The Moon: The Support System

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

The Moon

You can sense and understand the mood and feelings of others, and are excellent at counseling and nursing. You are quite emotional, and have a natural sense of that which pleases, knowing the mood of the crowd. You can be overly protective (or protected), but are good at parenting and creating a home. Quite domestic.

Moon in Cancer

You like other people, and they can tell. Others value you for your sense of discrimination and kindness. You love working with groups, especially in psychological areas and where feelings are involved. You are very discriminating when it comes to your home and surroundings -- a great lover of tradition. Your love of history, different cultures, and your own past is exceptional. You value and are a connoisseur of all things bright and kind.

Moon Conjunct Venus

You may find yourself being too harsh or forceful when dealing with others, especially in group situations. The social fabric around you is something you tear through all too often in your drive to get things done. This can result in a distinct lack of support or assistance from others. Since you tend to ignore sentiment and the feelings of others, you are often left on your own. This non-cooperation makes it hard to really get ahead.

Moon Square Mars

Your approach to discipline and responsibilities does not exactly cater to the moods and feelings of others. You have little patience for sentiment, tradition, and history. Your lack of control over your own feelings can result in real arguments. One result is that you may not always have the support of those around you. You sometimes have to go it alone.

Moon Opposite Saturn

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Moon Opposite Uranus

The image you project of what is perfect or ideal from your point of view may find little support at home. Others could oppose or block you in these matters, and maintaining your dreams may be at the price of your friends and surroundings. You may find your background, environment, and all that is traditional less than ideal, even flat and uninspiring.

Moon Opposite Neptune

You have natural psychological ability, in particular when working with the public. You can handle emotional and personal issues (vulnerable areas) where angels fear to tread. People sense this about you and trust you with sensitive matters, inner worries, and questions of personal identity. You have a real mission and a sense of purpose.

Moon Trine Pluto

You are expert at manipulating the public and its many moods. Your practical sense for group psychology may find you in real demand as an organizer and producer of public events. You have real insight into feelings, moods -- what makes people work.

Moon Conjunct Midheaven

The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

Mercury

You are dynamic and always expressive in thought and speech -- dramatic. You appreciate your own ideas, and tend to be outgoing in speech and manner. Fresh. Warm. You put forth strong views and are hard to influence or change. Emotional and a good entertainer, you are louder than average and tend to exaggerate. You are a lover. There are always plenty of tears and laughter.

Mercury in Leo

You are a heavy-duty thinker and serious student, always ready to work an idea through, reducing it to what is essential. You enjoy mental effort and discipline, and work long and hard at whatever you put your mind to. You could present or teach religious and philosophical ideas, anything where substance and content are at issue.

Mercury Trine Saturn

You enjoy working with your mind, and your sharp perceptions make finding new solutions easy. You always bring an unexpected twist or insight to anything you set your mind to. You are able to teach or help others to be more original when it comes to the words or thoughts they use. You can use the mind in original ways and probably have excellent eye-hand coordination. Your laser-like mind makes conversations fast-paced and illuminating. A ready wit.

Mercury Trine Uranus

Venus: Values and Discrimination

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Venus

Homeward bound! With you, the domestic scene is ideal. Marriage, children, animals, gardens -- the whole works. You like to feel secure. Sensitive too. You are dependent on others and like to be taken care of, even mothered. You love music, can be very emotional, and tend to be protective.

Venus in Cancer

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

Venus Square Mars

You don't like rules and prefer to live in disorder rather than submit to outside regulation. Your particular value system manages to bring you into conflict with others, especially those in authority. You seldom appreciate the law in any form and end up challenging it almost every time. You persist in ignoring your responsibilities, and you let your obligations pile up until a confrontation is inevitable. Delinquent.

Venus Opposite Saturn

You like your life regular and find little value in new trends and inventions for their own sake. The same goes for nonconformists and all the other weirdo's that crowd the world. You oppose them, and often deliver your message in person. Arguments on this theme are common. Any sort of change threatens you more than most, and you do all you can to ignore it. Every so often, like those earthquake faults, all hell breaks loose and some of this catches up with you.

Venus Opposite Uranus

You don't appreciate other-worldly talk. Dreams, imagination, and images are a lot of "hooley," as far as you're concerned. You find it hard to let go, and you stick to a value system that even you know is less than ideal. You compromise your own ideals and values out of fear of being deceived and led astray. "They" are all charlatans, as far as you're concerned, which is one way of showing how important this subject is to you. Confrontations along these lines are easy to come by, and you seldom fail to bite.

Venus Opposite Neptune

The External Planets: Mars, Jupiter, Saturn

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

Mars: Drive and Emotions

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

Mars

You are powerfully motivated, even driven, have a hot temper, and tend to be impulsive. You are seldom very reflective when it comes to doing something, but act first and ask questions later. Your more fiery emotions are always an insult away. You have blind courage and sheer guts. Aggressive. A self-starter. Energetic.

Mars in Aries

You hate a lack of clarity, especially when it comes to your feelings and emotions. This is a less than ideal world as far as you are concerned, and you are for making the best of it. Whatever dreams and ideals you may have had are somehow shut off from the day-to-day realities you face. You would rather ignore your dreams than be tortured by their remoteness. You are suspicious of pie-in-the-sky and have an abnormal fear of being deceived, in particular in matters of love and feelings. A sign of emotional tension.

Mars Square Neptune

You are very competitive -- even pushy -- when it comes to partners and other people. You have a great social drive and love to work in a group or with close friends.

Mars Square Midheaven

Jupiter: Career and Life Path

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

Jupiter

A career in communications of one kind or another is indicated, for you are a kind of living link or channel. You love investigations, reporting, writing, speaking, broadcasting, advertising -- any and all networking. Forever curious, you love searching for answers and following leads.

Jupiter in Gemini

Saturn: Responsibilities

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

Saturn

There could be difficulty with long-term goals and philosophies. You don't trust them. Nearsighted, with your nose to the grindstone, you need to travel and explore the length and breadth of the mind and world. Open up. Learn to value freedom, frankness, independence. Look up!

Saturn in Sagittarius

You find it difficult to be spontaneous, to get away from routine and do something different. Others see in you a creature of routine. Travel may also be hard for you. It is not easy for you to change or to accept changes. When you do enact a change, it is always at the deepest or core level and affects everything else in your life. Once a change is made, it at once becomes a part of you, solid and immovable. Those near you may feel that you inhibit the proverbial "life of the party." Code, computer programming, and the like should interest you.

Saturn Conjunct Uranus

The Outer Planets

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

Uranus: Break-Thrus & Insights

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

Uranus

You have new philosophies ideas for the future and new approaches to travel and exploration (of all kinds). Long journeys interest you. You may startle others with your direct conversations, always getting right to the nitty-gritty. You enjoy being alone, free, and on the move. The original optimist.

Uranus in Sagittarius

Neptune: Ideals & Imagination

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Neptune

The practical is the ideal. Form follows function. You have a dream of being in control -- the puppet master. You are very interested in tradition and tend to be dignified and conservative. You believe in an orderly society led by benevolent monarchs -- those who can see what to do.

Neptune in Capricorn

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

Neptune Sextile Pluto

Your ideal dream is a private one, and heaven is as close as home and family. You find public life and the outer world harsh and unimaginative.

Neptune Opposite Midheaven

Pluto: Inner Change and Growth

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

Pluto

You tear through appearances in an effort to get beneath, behind, and at the heart or essence. You may find psychology, initiation, and mysticism, and the occult of great interest. Intense personal change and inner growth are lifelong habits.

Pluto in Scorpio

The supportive help of women or a girl can be an important factor that will affect business or reputation and increase your sense of security. You are a fine psychologist, researcher, or detective and are good at dealing with joint or others' finances.

Pluto Trine Midheaven

Planets in Houses

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on planet emphasis:

First House: Appearance, Approach

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

Libra

Second House: Possessions, Reactions

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

Scorpio

You could be a terrific business person, as you have an ability to get past the surface of things and separate out that which has real worth. In the area of possessions or material goods you will go through a lot of changes and learn a lot.

Pluto in 2nd House

Third House: Inquiries, Communications

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavors, where its basic fairness and evenhandedness is helpful.

Sagittarius

You don't waste words, and communications tend to be short and to-the-point. You are very determined and deliberate when it comes to mental work and would make an excellent researcher or scientist. You concentrate on what is essential.

Saturn in 3rd House

You have real insight when it comes to anything connected to research, study, and the world of ideas. Your independent mental approach to problem-solving and communication finds you coming up with connections that are new and different.

Uranus in 3rd House

Your mind tends to be very imaginative and not concerned with facts and figures. Instead, ideas and writing of a mystical or poetic nature appeal. Research into religious or very idealistic subjects is indicated.

Neptune in 3rd House

Fourth House: Home, Family, Security

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

Capricorn is the business energy of the zodiac, for it is the very opposite of the emotional Cancer. Given to clear-headedness and practical insight and vision, this sign always takes a distanced perspective, a cool appraisal. Logical and painstaking, Capricorns love hard work and earned results. Money and things in general are very important.

Capricorn

Fifth House: Expression, Creativity

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

Aquarius, the sign of humanitarian goals and altruism. Always impartial and nonsectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

Aquarius

Sixth House: Responsibility, Work, Health

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyze our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

Pisces

Seventh House: Relationships, Other People

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

Aries

You are highly motivated when it comes to relationships (social or private) and strive to rise above personalities. An urge to see unity in everything, to marry or join all disparities, may find you going overboard now and again.

Mars in 7th House

Eighth House: Business Savvy, Elimination

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

Taurus

Your life path involves cutting through appearances and superficialities and laying bare the reality of a situation. This could mean that the business world is an open book for you -- easy to read. Any career where you get through to what really is there.

Jupiter in 8th House

Ninth House: Religions, Philosophy, Ideas

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

Gemini is concerned with connections and communication of all kinds -- letters, wires, telephones, voice, thoughts, writing, and mental processes in general. Gemini is the gadfly, the communicator, the gossip of the zodiac. Searching conversations, scientific inquiry, research, and so on belong here. Gemini energy is unattached, independent, and inquisitive.

Gemini

Your sense of honesty and truth is something that others sense in you and support. You might find yourself teaching or guiding groups in matters of religion or philosophy. Travel, especially with others, is indicated.

Moon in 9th House

Your love of truth makes philosophy and religious ideas a life-long habit. You appreciate things of a global or universal level and could love to travel. Appearances mean little to you, and you value honesty and candidness in friends and partners.

Venus in 9th House

Tenth House: Practical Vision, Vocation

The 10th house is a house of practical vision and clairvoyance, for here we can see clearly what is. Reputation and career are often connected to this house, since the areas where we can see with greatest clarity are those we most often can put to use to make a living. In summary, this house is where we have real vision and can see to do and work. Planets transiting this house may provide moments of insight and clear-seeing as well.

Cancer is the mother of the zodiac, always making a home, protecting and providing for others. A sensitive sign where feelings and real experience count more than cold logic. It doesn't get any more physical and emotional than here. This sign has a sense of substance, a home base or foundation. Cancer energy is always limiting, bringing us down to Earth, grounding our every thought in experience, in substance.

Cancer

Eleventh House: Dreams & Visions, Community

The 11th house has to do with putting our visions and dreams to work. We have been on the mountain and had a vision (10th house). Here we take our vows never to forget what we have seen and to work hard to make these dreams into reality. Thus this house has always been connected with altruistic and humanitarian goals and trying to set them in motion. It is the house of friends and community, because when we are powered by a real insight or vision we share with all -- irrespective of differences.

Leo energy is expressive, emotive, and concerned with awareness and a sense of pride and ownership. Here is always a sense of home base or confidence from which the aggressive and outgoing Leo energy operates. Often very artistic, and always theatrical and expressive, this sign is good for creativity and the arts. Warm and big-hearted, this sign belongs to love of animals, sports, children.

Leo

Perfect as a group leader, where your innate idealism and love for humanity can blossom. Group or community work -- anything that is altruistic or serves the common good -- is where you can be found. You strive to make your dreams and ideals real.

Sun in 11th House

Your mind runs to humanitarian values and thoughts of what could (and should) be. Ideas connected with group work and goals (making your inner vision real) are natural. You are good at putting your ideas to work in the world, making dreams real.

Mercury in 11th House

Twelfth House: Sacrifice, Psychology, Acceptance

The 12th house is about all that we go through in order to make our dreams into reality and manifest them in the world around us. It covers what we are willing to put up with, the sacrifices we will make in order to bring across what is really important. This is connected to prisons, institutions, betrayal, self-undoing, and the like, because it is here that we must choose to take some possible abuse for the sake of the message we are carrying, or blow it all away with a negative reaction.

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

Virgo

Elements

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

Your positivism lets you get right to the point, and you have little patience with those who shilly-shally. You've plenty of enthusiasm and warm up to things and people quickly. You have an inner self-confidence which burns with its own light.

Have Fire

Common sense and the ability to deal with practical matters may be lacking, and you may wonder at those who spend much time making money, doing life's chores, and attending to basic necessities. You depend on mental activity and confidence.

Want Earth

You are an aggressive prime mover, a starter, able to initiate and get things moving. Not always hot on the follow-up, you may tend to get the ball rolling and get out to move on to other things.

Have Cardinal

Burn Rate

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

Planets in High Focus

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

Venus

Emotional change and growth will be in high focus and amount to a constant in your life. A high burn rate here suggests that feelings, motivation, and sheer drive will be a trademark as well as a source of continual experience and learning. You find yourself in constant change in matters of feelings, and emotional scenes are part of your stock and trade. Experience in these realms will be extensive.

Mars

Questions of attitude, approaches to problem-solving, and the methods for handling authorities and the law are in high focus and are indicated by a high burn rate regarding your career and making your way through life. Perhaps you will have many jobs or be forever going through changes and adjustments that affect your career. It could be difficult finding lasting success or prosperity, and the path to it may be areas where you have real experience and particular expertise.

Jupiter

You have a high burn rate (go through a lot of changes) when it comes to sensitive, psychological areas of your life or times when you are feeling vulnerable. Direct confrontation tends to put you through a lot. You prefer diplomacy but find yourself in the midst of sticky situations on a regular basis.

Pluto

Challenges and Abilities

Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You are very much involved with all that is traditional, but with this special twist: you are a revolutionary when it comes to the domestic scene and have very special insights into home, family, and surroundings. Others find you original (certainly very different) and perhaps unpredictable, especially when it comes to emotional reactions. Your approach to feelings, moods, and the whole psychological gambit is novel. You tend to show emotions suddenly and/or in unusual ways. You like unconventional friends and are a nonconformist yourself. Independent women may be important to you.

Saturn Conjunct Uranus

You like other people, and they can tell. Others value you for your sense of discrimination and kindness. You love working with groups, especially in psychological areas and where feelings are involved. You are very discriminating when it comes to your home and surroundings -- a great lover of tradition. Your love of history, different cultures, and your own past is exceptional. You value and are a connoisseur of all things bright and kind.

Moon Conjunct Venus

You always can say just what you mean. Almost always right-on when it comes to questions of feelings, you take an active interest in psychology, different cultures, and history. You can find support from all sides when it comes to any sort of mental activity -- writing, speaking, and all forms of communication.

Sun Conjunct Mercury

You are expert at manipulating the public and its many moods. Your practical sense for group psychology may find you in real demand as an organizer and producer of public events. You have real insight into feelings, moods -- what makes people work.

Moon Conjunct Midheaven

Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

You flee from crowds and are most happy when surrounded by home, family, and all that is private. Your home life is most important. It matters not to you that you are not a public person and not at your best when in a crowd.

Neptune Opposite Midheaven

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

Venus Opposite Uranus

Your approach to discipline and responsibilities does not exactly cater to the moods and feelings of others. You have little patience for sentiment, tradition, and history. Your lack of control over your own feelings can result in real arguments. One result is that you may not always have the support of those around you. You sometimes have to go it alone.

Venus Opposite Saturn

The image you project of what is perfect or ideal from your point of view may find little support at home. Others could oppose or block you in these matters, and maintaining your dreams may be at the price of your friends and surroundings. You may find your background, environment, and all that is traditional less than ideal, even flat and uninspiring.

Moon Opposite Neptune

You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Others could oppose or block you in these matters, and maintaining your dreams may be at the price of your friends and surroundings. You may find your background, environment, and all that is traditional less than ideal, even flat and uninspiring.

Venus Opposite Neptune

You could find that you are neglecting either your home and family or your career (or both) due to your social and personal life. Relationships, working with other people, and making a good presentation. Home life is secondary.

Mars Square Midheaven

Your dreams and ideals tend to clash with your reality, the actual surroundings in which you find yourself. You may insist on perfection at the expense of your personal emotions and feelings. Others may see you as unrealistic or downright deceptive. Others may confront you and refuse to go along with your other-worldliness. You labor to find some compromise between dreams and your actual surroundings.

Mars Square Neptune

You keep your feelings and emotions to yourself and resent any attempt to analyze or probe them. Your home and surroundings are tidy and air-tight, as well. However, you don't mind probing and dissecting the lives of others. This can't help but produce a strain in your relations with others, and you probably get very little support for your detective work. These two parts of you which seldom meet cause constant tension, resulting in periodic explosions.

Sun Square Pluto

You may find yourself being too harsh or forceful when dealing with others, especially in group situations. The social fabric around you is something you tear through all too often in your drive to get things done. This can result in a distinct lack of support or assistance from others. Since you tend to ignore sentiment and the feelings of others, you are often left on your own. This non-cooperation makes it hard to really get ahead.

Talents and Abilities

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

Your career always seems to get the support you need, and this is one area of life that runs smoothly. You seem to understand what the public wants, and mass marketing is a natural for you.

Pluto Trine Midheaven

Your sense of responsibility is so well developed that you always end up managing any situation you become involved in. You are disciplined, work hard, and are good at getting others to work with and for you. Perhaps a little too serious and frugal, you enjoy getting along on less. Essentials are what count. You like to keep to yourself and tend to avoid too much socializing. Others may prefer keeping some distance too.

Mercury Trine Saturn

You are very original when it comes to home and surroundings -- the environment you build around you. This could also manifest in unusual ways of supporting yourself. Your mother may have been quite eccentric or your upbringing somehow different. When you have breakthroughs, they often come as insights into your immediate surroundings, home, and environment -- your support system in general. This could also manifest in your finding new and different ways to make a living. You may have new ideas about the past, history, and younger people, find it easy to create an unusual environment, and enjoy surrounding yourself with what is new and different.

Mercury Trine Uranus

You find it easy to work with other people and tend to pour a lot of energy into those around you. Your home and surroundings reflect this. When it comes to teaching or coaching younger people, you are a natural, always able to motivate and inspire others. With your powerful spirit, you enjoy your strong emotions and have an active social life as well.

Sun Trine Mars

You have natural psychological ability, in particular when working with the public. You can handle emotional and personal issues (vulnerable areas) where angels fear to tread. People sense this about you and trust you with sensitive matters, inner worries, and questions of personal identity. You have a real mission and a sense of purpose.

Life Landscapes

Landscape: Major Life Periods

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Your Personal Background

A very active and outgoing youngster, you show an interest in the outside world and social life very early, say around 11-12 years of age. You may at this time move very rapidly into the limelight and find yourself a leader and quite successful in all social activities. Things will just work out for you. This trend will continue and reach a peak when you are about 18-19 years of age, after which time you will lose interest in the social and external and turn more inward. This could result in your being somewhat of a prodigy and achieving a very early career success, only to find yourself less and less involved in it. You may even turn away from everything and choose to start over again to find a new vocation. You may discover yourself spending many years pursuing a more inward and subjective path that could last until you are 30 years of age (or more) at which time you will turn outward once again and take a new direction.

Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

On Descendant: Apr 29, 2026

The above dates mark the end of a number of years of hard work on your part, sort of an apprenticeship. Now you will begin to come into your own. Opportunities will present themselves. Now is the time to make that outward push and ride the crest of the wave into fame and fortune. This is the best time you will have (for many years) to make progress, push forward, and rise to prominence. It will be hard for you to do wrong, for all the cycles are working in your favor. This is also a time when you may marry or take on a new role in the community or with other people. You will be in demand, and recognition will be forthcoming. Go for it. These next 6-7 years will find circumstances working to help you and raise you up, push you forward. In summary, this marks a more outward and enjoyable series of years, during which things will come to you easily. Friends and a social life are in order and, in general, an easy and untroubled life. These are good years to grow up, be social, recognized, and so on.

Major Transits

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

You will prosper by pursuing your ideals and most deep-seated dreams of how life could be. Don't be afraid to project that image, make those dreams real. Ideas of group cooperation and communion (mass images) could further your career.

Jupiter Conjunct Neptune on Jan 05, 2020

A time when job and family take up most of your time. You may find that friends and many personal interests fall by the wayside. This marks a time when your whole life path may be redefined and see you heading in a new career direction.

Jupiter Square Ascendant on Jan 11, 2020

You may not feel like taking the obvious road to success that has opened in front of you. Good choices from a career standpoint may tend to ignore your feelings and ambitions. Your own basic drive may be at odds with the direction your life is taking.

Jupiter Square Mars on Jan 12, 2020

You may find yourself succeeding and moving ahead by using your mind and thoughts. Also, communication and research in all forms could be a key area for career growth.

Jupiter in 04 on Jan 14, 2020

This could be a time of challenge from a career standpoint. You may find yourself spending more interest and energy at home and with the family, and having less shine on the job. This home life will lay the foundation for greater confidence at work.

Jupiter Opposite Midheaven on Jan 14, 2020

Breakthroughs regarding relationships and the social life in general. Possibly unconventional approaches to partnerships and lovers. You may find yourself pursuing very eccentric or different methods of communicating, responding to others.

Uranus in 08 on Apr 29, 2020

A time when you may feel rebellious and act out a need for freedom, especially from any psychological and deep-seated feelings of insecurity and vulnerability. You have no interest in self-analysis, deep conversations, gossip, and the like.

Uranus Opposite Pluto on Jun 30, 2020
